

English

- Your Charged MacBook
- Writing Utensil

Math

- Your Charged MacBook
- 3-Ring Binder (2" sufficient)
- Pocket dividers (5 dividers) or 3-hole punched folders for inside the binder
- 1-2 packs of looseleaf college-ruled notebook paper (preferred) **OR** 1-2 college-ruled notebooks (for notes and homework)
- Mechanical (preferred)+replacement lead **OR** [wooden pencils](#) -- I highly recommend this [PaperMate Mechanical Pencil](#) (set of 2 and the eraser lasts a LONG time, is great, and is replaceable) -- one of the norms that I would like to set is that they have only 1 or 2 pencils (same with pens) that they need to keep track of the entire year instead of losing/using up/wasting a bunch of pencils (because they were cheap and they purchased 12 of them at the beginning of the year) and then constantly borrowing or being without a pencil
- Eraser(s) -- I highly recommend the [Pentel High Polymer Eraser](#) -- it's cheap and is the best eraser ever invented
- A [TI-84+ Graphing Calculator](#) - it does NOT have to be the color calculator or the "CE" model and the TI-83+ calculator is sufficient if they already own it. A Casio calculator is **not acceptable**. **The menu options are completely different and not compatible with iSTEM.**
- [Graph paper](#)
- A highlighter
- A ruler
- A pack of Post-it notes and a pack of 3"x5" colored notecards (prefer not white)
- A writing utensil box to keep their writing utensils organized -- doesn't have to be exact but something like this [plastic one](#) or [mesh one](#)

The links are suggestions, but not requirements.
